

	Parliament X	Dissolution	Parliament Y
Events in the real world	<div>Boundary review report</div> <div>Order in Council made</div> <div>Geographic codes for new constituencies published</div> <div>Dissolution proclamation</div>	<div>Statement of Persons Nominated deadline (Dissolution + 7 days)</div> <div>General election day (Dissolution + 25 working days)</div> <div>The Monday after (GE + 4)</div> <div>Opening of new Parliament</div> <div>Opening of new Parliament + 1 week</div>	
What we now know	<div>Names of new constituencies</div> <div>Geographies of new constituencies</div> <div>The date of making of the Order in Council</div> <div>Geographic codes for new constituencies</div> <div>End date of current Parliament</div> <div>Date of summons of next Parliament</div> <div>End date of current boundary sets</div> <div>Start date of next boundary sets</div> <div>Date of election writs</div> <div>Date of general election</div> <div>Date of deadline for Statements of Persons nominated</div>	<div>Candidates are knowable</div> <div>Some - probably not all - winning candidates</div> <div>Patchy knowledge of full results</div> <div>?All winners known?</div>	
What we need to do	<div>Create new Order in Council attached to enabling Act</div> <div>Create new (undated) boundary sets</div> <div>Create new (undated) constituency group sets</div> <div>Create new constituency areas</div> <div>Create new constituency groups</div> <div>Generate constituency area overlaps (CB)</div> <div>Add geographic codes to new constituency areas</div> <div>Assign roles</div> <div>Grant access</div> <div>Training</div> <div>Apply end date to current Parliament</div> <div>Create next Parliament</div> <div>Apply end dates to current boundary sets</div> <div>Apply start dates to next boundary sets</div> <div>Create general election</div> <div>Create ordinality of general election in boundary sets</div> <div>Create all constituency elections in general election</div>	<div>Phase 1 - candidate gathering starts</div> <div>Phase 2 - candidate checking starts</div> <div>Phase 3 - identifying winners starts</div> <div>Phase 4 - getting full numbers starts</div> <div>Phase 5 - verifying full numbers starts</div> <div>LP: make map</div> <div>Save Statement of Persons Nominated to repository</div> <div>Ability to mark an election's candidates checked</div> <div>Mark a candidate as a winner</div> <div>Export of all candidates with known winners marked</div> <div>Contact allocated local authorities - rinse and repeat</div> <div>Generate 'X' gain from 'Y' summary</div> <div>Compare Result Declaration Form to election record</div> <div>Save Result Declaration Form to repository</div> <div>Generate turnout</div> <div>Compare Result Declaration Form to election record</div> <div>Enter numbers</div> <div>Generate majority per election</div> <div>Mark election as verified</div> <div>Notify election has full numbers</div> <div>Generate vote share per candidate</div> <div>Notify election has verified numbers</div> <div>CSV with full numbers where available</div> <div>Generate vote changes per candidate</div>	<div>Email to new Members asking if they've stood before</div> <div>Replies from new Members stating if they've stood before and where / when</div> <div>Update old elections (general and by) with MNIS IDs for new Members</div> <div>Re-export old elections with additional Member MNIS IDs</div>
What would make that easier	<div>Upload new constituency CSV to create new areas and groups</div> <div>Upload CSV to decorate new constituencies with geographic codes</div> <div>A staging version to train in</div> <div>Magic Button to create all constituency elections in general election</div>	<div>Better lookup for MNIS Members</div> <div>Easily refreshed list of MNIS parties</div> <div>Notification to checking team when election candidates ready to check</div> <div>Admin dashboard showing progress and blocked</div> <div>Notification when a candidate is marked as a winner</div> <div>CSV ideally online for all uses in Parliament</div>	
Administrivia	<div>Election volunteer recruitment drive</div>	<div>Document CSV format for full candidate list (with winners marked)</div>
